Page 1: Privacy

Thank you for taking part in our survey to protect specialist CFS/ME services.

We will collect your name and email address to avoid duplication. Your personal data will be kept securely in the NHS whilst the survey is running and will be destroyed when it is complete (we anticipate this will be in September 2019).

We respect your trust and privacy and will never share your personal data.

The number of responses to this survey and the data you provide in Question 3 may be provided to the NHS or other bodies responsible for providing services.

If you have any questions, please contact: Servicesurvey@nbt.nhs.uk

Page 2: Question

Research shows that adults and children with CFS/ME are more likely to improve with specialist treatment.

We believe that adults and children with Chronic Fatigue Syndrome or ME (CFS/ME) should have a choice and be able to access specialist NHS services if they want this.

2. Do you think that adults and children with Chronic Fatigue Syndrome or ME (CFS/ME) should have access to specialist NHS services for assessment and treatment?

- Yes
- No

2.a. If you want to say anything else, please add some free text below
